### A One Stop Shop of Professional Learning Resources

WISELearn is a centralized location for classroom and professional learning resources for Wisconsin educators. This free online portal provides the resources in three main sections: Classroom Resources, Professional Learning, and Connect the Field.

- ❖ **Classroom Resources** is where you can find some of the top instructional resources used in Wisconsin along with Wisconsin educator-driven content resources. [WISELearn Resources](#) is a newer addition that will be educator-driven and curated. Check back later to see updates.
- ❖ **Professional Learning** offers two separate sections that support **subject area professional learning resources from DPI** and **effective tools from across the country**. The resources from DPI include everything from academic standards support to tools for effective writing instruction. These supports and resources are broken down by subject matter to help create a more streamlined approach to fit educator's needs. The effective tools page provides some of the exceptional resources from across the country. This page will evolve as more materials are shared.
- ❖ The **Connect the Field** page offers a variety of online communities. Google+ communities are provided where you can connect with teachers and educators across the state in specific subject areas and topics to pose questions or to share an article. This is a great way to get support in a specific area of need you may have. There are also connections with other professional learning communities connected through Google, Microsoft, and other social media websites.

### Professional Development
